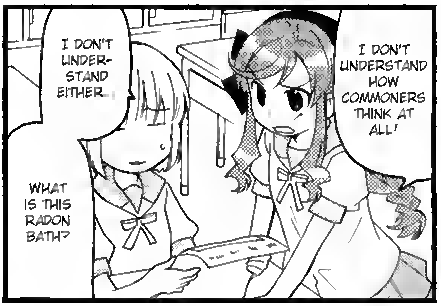
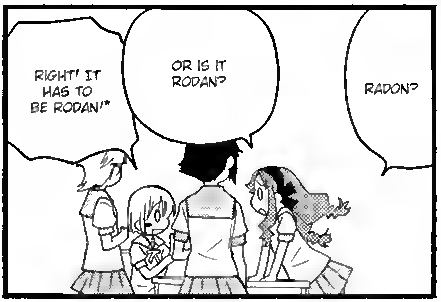
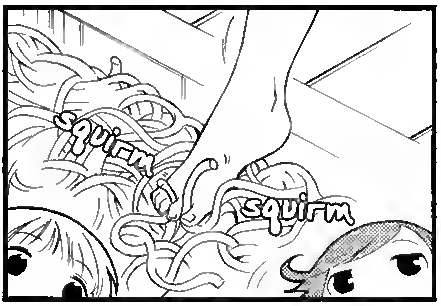
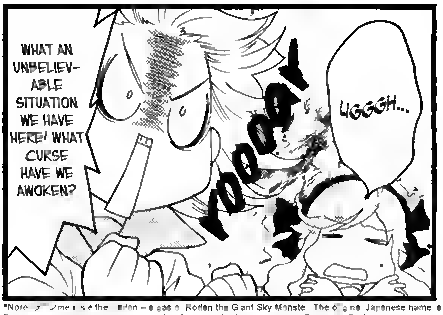
The Giant Sky Monster



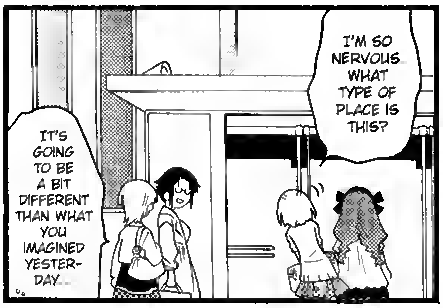


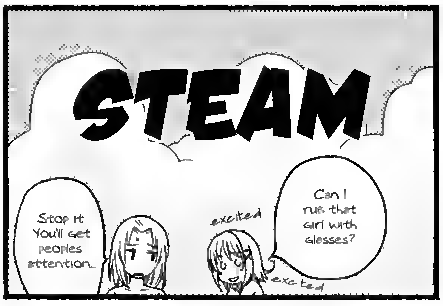


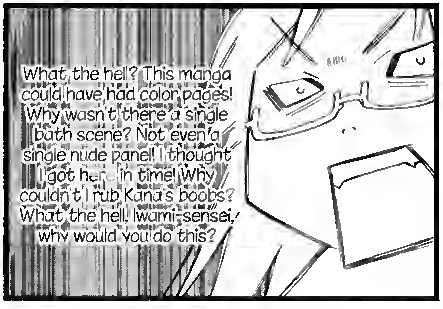


*Note: The name of the Toho kaiju is Rodan. Rodan the Giant Sky Monster. The original Japanese name is Radon, but the name got mistranslated to Rodan in the English version. Rodan (or Radon) is a giant monster Godzilla film, and is the name of the flying supermutant in the film. There are giant insect larvae monsters hidden in mine waters that kill many humans. Radon gas actually occurs naturally in uranium mines, which is where this film begins.

The Scream from the Soul







What, the hell? This manga could have had colon pages! Why wasn't there a single bath scene? Not even a single nude panel! I thought I got her... in time! Why couldn't I rub Kana's boobs? What, the hell, warmi-sensei, why would you do this?

And then on the next day
